

25 years funding

Projects have a stable and predictable source of funding over 25 years, enabling them to achieve real and lasting impact

BIODIVERSITY

Protects and restores over 500,000 ha of critical tropical forest habitat in Southeast Asia for biodiversity and people

CLIMATE

Estimated to reduce future carbon concentration in the atmosphere by > 150 Million tons of carbon dioxide equivalents including removals and avoided emissions

LIVELIHOODS

Supports over 32,000 people living in forest frontier areas

INTEGRATED PAYMENTS

SAFEGUARDS AND RISK MANAGEMENT

Governed and operated independently, ensuring that resulting sustainability claims are credible and risks are managed across a portfolio

PERFORMANCE BASED

Independent third-party verification ensures that KPIs are achieved prior to the release of annual payments

Costs are linked to procurement volumes

US\$ 1 billion commitment to forest protection and restoration

RIMBA
COLLECTIVE

RIMBA COLLECTIVE

Companies from across the palm oil supply chain coming together to create collective impact
